

FORD LOCATION FACTS TOLD

Bonds and Prosperity

The Ford factory.

What does it mean to the people of Richmond?
\$4,000,000 INVESTMENT

It means that the greatest industrial wizard of all time has chosen this city as the site where he will build a large industry at a cost to start with of not less than \$4,000,000.

That eight hundred men will take their place in the life of this community as workers in the factory.

That fact alone means more to the arteries of business than most of us realize.

800 EMPLOYEES QUICKEN TRADE

Eight hundred men steadily employed, regularly paid, will quicken the pulse of trade and bring new money into the community.

Eight hundred men earning on an average of only \$5 a day, means four thousand dollars every day. Averaging 25 days a month, it means, one hundred thousand dollars every thirty days, or one million two hundred thousand dollars annually.

Six hundred of these 800 men probably will be married men. They must have homes to live in.

\$3,000,000 LAND VALUE INCREASE

Six hundred homes at \$5,000 apiece, means added wealth in land values of three million dollars.

Are these figures fanciful or fictitious?

No, they are easily proven. Take a piece of paper and a pencil, and figure it out.

If a hundred thousand dollars additional is turned loose in Richmond every month, it means added prosperity for all of us.

Every line of business, every activity in the community, will show the effects.

OTHER INDUSTRIES FOLLOW

And where Ford locates other industries follow. Ford's location at any point is conditioned on certain things being assured.

Good water, good climate, good schools, good churches and proper rail and water facilities.

If Richmond answers the demands of Henry Ford in all these respects, it stands to reason that Richmond will meet the requirements of other great factory heads.

CAPITALISTS WATCH RICHMOND

And thus it follows, as the night the day, that when Ford shall have started to break ground and lay the foundations for his four million dollar factory, that other captains of industry will come here and seek sites for their factories.

Having given our solemn promise to Henry Ford that if he would come here and locate his factory we would provide proper port and harbor facilities, it is squarely up to us to keep the faith.

BONDS ECONOMY MEASURE

And the simple practical and most economical way to do this is by the issuance of bonds.

Therefore, as a matter of plain, rational business and fair and honest dealing, it is up to us to vote for the harbor bonds.

Richmond Pyramid Of Sciots Celebrate Big "Ladies Night"

They had a good time last night—the Richmond Pyramid of Sciots. It was Ladies Night, so the Sciots played host to their ladies and the members of various Masonic bodies.

The Richmond clubhouse was crowded to the doors with members of the various Masonic lodges Eastern Star, Order of Amaranth, John Daughters, and DeMolay, invited guests of the Pyramid.

George Lohr, William Barry and A. C. Curtis were in charge of the program and arranged an entertainment enjoyed by the large audience. There were eight acts of vaudeville; the famous Geraldine Morrie Gypsy Jazz orchestra, familiar to all radio fans in the Eastbay a Dixie Feed and dancing.

One of the bright acts on the program was the skit presented by the Sciots Dramatic club. Those taking part in it were Mrs. F.

Kent, Mrs. Zelda Chapin, Miss Chapin, Carl Alexander, George Ellice and Dr. Walter Cole.

During an interim in the program, Mayor Mattie Chandler addressed the audience on the approaching harbor bond election. Supreme Lecturer Charles Pratt, of the San Francisco Pyramid, was present and made a short address on the aims and benefits of the Sciots club. Toparch Homer Patterson was presented with a framed picture as a token of the esteem with which he is held by the members of the organization. The presentation was made by George Bengley, past toparch of the organization.

Supervisors To Plan Tunnel Change

Supervisor R. C. Staats, of Alameda county, has been appointed a committee of one to confer with Contra Costa board of supervisors on proposed highway traffic changes to relieve congestion.

This is the first definite step taken in the plan to improve the Fish ranch road behind the Claremont hotel as a supplementary artery to the Tunnel highway. The supervisors are considering making the Tunnel highway a one-way thoroughfare, out of Alameda county and the ranch road a one-way highway out of Contra Costa county.

TAHOE CITY—Truckee river Power Company extends power lines to this city.

HOW MONEY GROWS

It is really wonderful how interest, added to regular deposits even though they are small, counts up. The attractive interest now paid by Building and Loan Associations, which are under state supervision and as strong and safe as anything can be, offers unusual opportunity to those who want to get ahead. Trapp Removal; Cash Basis In Operating Are Proposed

Sixty creditors of the Jenny Wren Stores, Inc., yesterday agreed upon the following plan as a solution for the rehabilitation of the company:

REMOVE TRAPP

1. Removal of Edwin W. Trapp from actual supervision of operations. He is to retain his title as president, accept a reduction in his present salary of \$26,000 a year, and be succeeded as general manager by an executive to be selected by the creditors' executive committee. His stock in the concern is to be placed in escrow.

"DIRECTOR" RESIGNATION

2. Resignation of the two other members of Trapp's so-called "dummy board of directors," and the election of two creditors to serve on the directorate with Trapp.

LOAN PROPOSED

3. That Trapp and his associates contribute \$50,000 in the form of a loan to the company and that an additional \$50,000 be raised among stockholders. The fund of \$100,000 to be used for payment on now existing debts and operating expenses.

CASH BASIS

4. The business to continue on (Continued on Page 8)

Police Chief In Dilemma; Ten Bucks Gone

PITTSBURG, Aug. 19.—It may look like Chief of Police Charles Scudero of Pittsburgh is looking the empty sack, but he doesn't intend to retain his grasp very long, that is if he can locate R. W. Martin of Stockton.

Martin was fined \$10 by Justice of the Peace Frank Glass of Martinez recently for failing to pay for his nights lodging at the Continental hotel of this city.

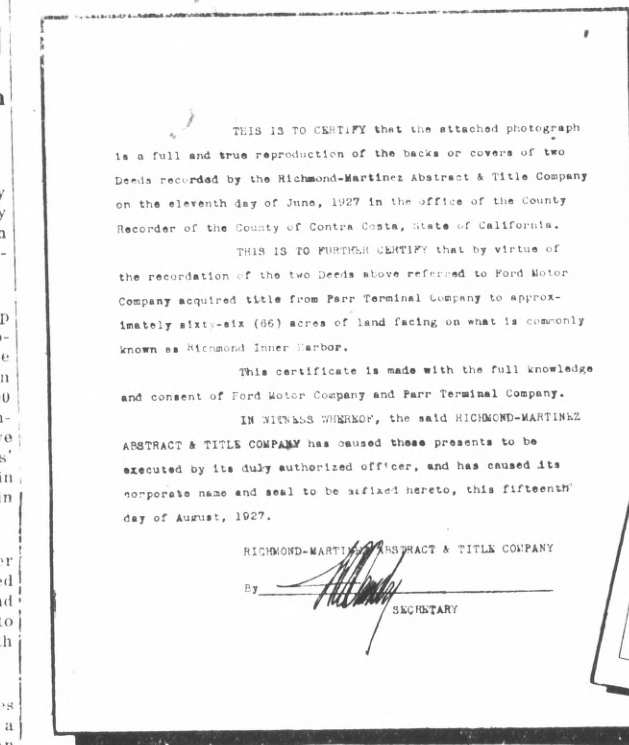

Since Chief Scudero wanted Martin for questioning in connection with what occurred at the hotel room that night, he paid Martin's, fine and took him to Pittsburgh.

Martin established his innocence of any wrong doing, and upon his promise to reimburse the chief for the fine and pay his hotel bill, he was released. That was two weeks ago. Neither the chief nor the hotel has been reimbursed, according to Chief Scudero. Now the Pittsburgh police force is seeking him.

Many Present At Big Dollar Tea

Over 125 guests attended the annual Dollar Tea of the Wesley General Aid yesterday afternoon at the Wesley church parlors. Mrs. C. R. Faurer, president of the aid, presided over the meeting. The guests were received by the chairman of the five circles: Mrs. Nora Glover, Circle No. 1; Mrs. Frank Critts, Circle No. 2; Mrs. M. H. Williams, Circle No. 3; Mrs. Pearl Johnson, Circle No. 4; and Mrs. Martin of Circle No. 5, with Mrs. C. H. Weston, vice-president. (Continued on Page 8)

Photostatic Copy of Deeds From Parr Terminal To Ford Prove Site Purchase

There is not one word of truth in the statements that have been circulated about the city to the effect that Ford has just purchased a site for a factory in Richmond, and that no deed has ever been placed on record.

DEEDS ARE EVIDENCE
The above photostatic copy of the backs of the deeds from the Parr Terminal company to the Ford Motor company, with the certificate of the Richmond-Martinez Abstract and Title company should be sufficient evidence to

convince the worst skeptic in Richmond.
If you will notice one of the deeds was filed 43 minutes past 2 o'clock p. m. on July 11, 1927, and the other was filed for record just one minute later.

DETAILS REVEALED
The photostatic copies show the deeds were received by Irene Hurley, the county recorder, and they also show the volume and page in which the deeds are recorded. At the top you will notice the initials of the deputies, who in-

dexed the instruments, and who compared them after they were recorded.

TWO DEEDS
One of the deeds calls for 62 acres of land, a part of the 102 acre tract that the Parr interests purchased from the Bay Counties Land company, and the other deed calls for eleven acres of land, that were bought by the Parr Terminal company from the Belt Line railway.

FOR FORD PLANT
These two tracts of land are

on the inner harbor and will be occupied by the \$1,000,000 plant of the Ford Motor company.

This convincing evidence, taken from the official records, ought to put every voter in Richmond at work to put over the harbor bonds. PREPARE FOR INDUSTRIES
The harbor is not only being prepared for the Ford Motor company but for other industries that will be induced to locate on thousands of acres of land, owned by private individuals, that will be made available, by the contemplated improvement.

BRAKE TESTING WEEK ON TAP

"Have your brakes examined before August 29 or tell it to the judge."

This was the advice formulated by the chiefs of police of cities in Alameda and Contra Costa counties who at a meeting yesterday of the East Bay Safety council agreed to co-operate in a brake testing campaign opening on that date.

The campaign will continue for seven days with intensive brake tests in Oakland, Berkeley, Alameda, Albany, El Cerrito, Richmond, Piedmont, San Leandro and Hayward.

Motorists with faulty brakes will be cited as are other violators of the motor vehicle laws, and those with good brakes will have their windshield adorned with stickers giving official notice that they are within the law.

Garages and commercial brake testing companies will co-operate by staging their own publicity appeals and by keeping a complete record of all brake adjustments made during the week.

At the meeting at which the plans were outlined were President Fred R. Caldwell, of the safety council; Lee Newbert, president elect; Chiefs of Police Aug. (Continued on Page 8)

Newspaper Men Arrive Here From New York In 14 Days

From Brooklyn, New York, to Richmond in 14 days by motorcycle!

That's the record set by Charles and Roy Meyer, who reached here yesterday after a trip replete with thrills, and who are now with their uncle, Fred Meyer, of 129 South Twenty-third street.

They covered 3750 miles with but two flats, some sore joints, and a skinned arm or two. But it would take more than that to discourage New York newspapermen, they aver, and are getting ready to "hop off" for Gotham today by the southern route. Roy is employed on the New York Daily Mirror and Charles is associated with a number of the metropolitan dailies.

Congressman Curry Reported Improved

SACRAMENTO, August 19.—Congressman Charles F. Curry was at his home today, after being brought here yesterday from the Vallejo General hospital, where he has been ill several weeks. He is almost fully recovered and plans to leave for Washington shortly to confer with administration leaders on Mississippi flood relief and other national problems.

"Y" ACTIVITIES START FRIDAY

About 500 local boys will be affected by the fall activities of the local Y. M. C. A., which starts in earnest next Friday night with a roundup of the younger boys in the Pioneer and Friendly Indian clubs. Boys in the Comrade club will also open their fall program at this time.

The Hi-Y club program begins next Tuesday evening, and executives of this club will meet Monday night.

Camp Pioneer, the Richmond Y. M. C. A. camp, has the rating of Class A, according to A. W. Mueller, secretary of the local association. The ratings are dependent on equipment of the camp, safety measures, and instruction courses in woodcraft, life saving, and nature study. The precautions taken for camp sanitation and the kind of food served, are also taken into consideration by the national council when deciding ratings.

CHITTENDENS HOSTS

Mr. and Mrs. Faylor and family of Buffalo, New York, and Mrs. Ganzer, Mrs. Faylor's mother, are the guests of Mr. and Mrs. L. Chittenden of 114 Summit Place. The visitors are old friends of the Chittendens, and will remain in California a month before returning home.

"LONE STAR" ON RESCUE VOYAGE LANDS IN OCEAN

"We're In Another" Is Last Word Received From Birdman

SAN FRANCISCO, Aug. 19.—The Pacific Ocean is believed to have claimed two more tonight, bringing the total up to seven now, lost, three killed and three airplanes wrecked in the Dole Honolulu race together with two particularly wrecked planes in getting away from the Oakland Airport.

OTHERS DISAPPEAR

Later to lay claim to the mysteries of the broad Pacific were "Lone Star" Bill Erwin, and his navigator, Alekwald, who had been in search of the Golden Eagle, the first entry and the Miss Doran, the 22-year-old Flint, Michigan, school teacher, and he was reported himself going into a tail spin, the anxiety increased.

IN TAIL SPIN

As hope leaped to the fore yesterday the same hopes were dashed by later reports and then when Erwin started out to assist in the search for the crews which comprised five, including Miss Doran, the 22-year-old Flint, Michigan, school teacher, and he was reported himself going into a tail spin, the anxiety increased.

SENT RADIO REPORTS

Erwin up to within a few seconds of the time he was thought to have dipped into the ocean had been sending the newest reports by wireless. His last message was at 9:02 tonight when he reported: "We are going into another (tail spin)." The rest of the message was lost to those anxious waiters who waited with bated breath the ending of that sentence.

TENSION INCREASES

Army Officer To Have Experts At Hearing

MARTINEZ, Aug. 19.—Several high officers of the U. S. army and navy are expected to make dispositions in behalf of Major C. P. Watson of Big Pine Inyo county, under indictment by the Contra Costa county grand jury on charges of illegal possession of dynamite. Counsel for Major Watson has asked the court for permission to introduce the officers' affidavits when the case is called for trial on September 13.

The officers include: Rear Admiral C. C. Bloch, U. S. N., chief of the navy bureau of ordnance; Rear Admiral C. B. McVay, U. S. N., former chief of the navy bureau of ordnance; Commander Wilkinson, U. S. N., assistant chief of the navy bureau of ordnance; Brigadier General R. C. Ruggles legal advisor to the army ordnance bureau.

Their dispositions are expected to say that Major Watson has been experimenting with high explosives for five years, is an expert on the subject, and has invented several fuses and detonators now in use by the army and navy.

Watson, who is at liberty on \$5,000 bonds, is also under indictment in Alameda county for alleged careless handling of dynamite in the metropolitan area.

HILLSIDE CLUB HAS ENJOYABLE WHIST PARTY

The Hillside club met at the home of Mrs. S. D. Little at Nichol and Santa Fe avenues yesterday for one o'clock luncheon followed by an afternoon at cards. The club had as its guest Mrs. Walter Butterfield of Martinez, who lived in Richmond 13 years ago. Those who had the high scores at cards were Mrs. Mary Moyle, Mrs. James Allison, and Mrs. G. W. Topping.

The next meeting of the club will be at Kozy Kove September 2. Mrs. Mary Moyle will be the hostess for that afternoon. Two weeks ago the club met at the home of Mrs. G. W. Topping at 54 Seaside avenue.

Peter Boljat will put up a wood shed on the north side of Clinton avenue, between Eleventh and Twelfth streets, according to a building permit issued yesterday by City Building Inspector A. J. Hurley.

Great interest and enthusiasm was displayed by members over the plans of study for the new year presented by Mrs. Myrtle Stannage Brown, the club's efficient director.

Survey Shows Electricity Put To Over 8400 Uses

(By Universal Service)

NEW YORK, Aug. 19.—Ask almost anybody what electricity is good for and he tells you "heat, light and power" with visions of the bulb over his desk, the electric iron at home, and the street car outside.

Heat, light, and power, yes; but in how many curious ways? The National Public Service corporation has just completed a "curiosity survey" and discovered 8400 uses to which the electric current is being put.

They range from the electrification of infinitely exact measuring devices in the U. S. Army airplane testing laboratory at Langley field, Virginia to the production of artificial thunder storms in Pennsylvania mushroom cellars.

It's this way with the mushrooms. You've noticed how the succulent little plants bob up in the woods right after a summer storm. That's because mushrooms spawn grows most rapidly in an atmosphere full of ozone created by the discharge of static electricity into the air.

So the Pennsylvania growers help along by producing such an atmosphere with a little contraption every time the market is in a hurry for mushrooms.

They turn butter into cream by electricity down in Virginia. In some sections where the supply of milk is seasonal, they churn the excess of cream into butter and place it in cold storage until winter, then when summer comes they re-churn it by electricity into cream again and make it ice-cream for the children.

The survey found an orchardist in Pennsylvania who looked to Sing Sing prison for his inspiration.

"These pesky bugs that are eating up my peaches ought to be electrocuted like criminals," he

said to himself. Then he rigged up a series of incandescent lamps among the trees and under each lamp he put a pan of oil.

Then the winged joy-riders along his great white way came to the usual bright-light finish and dropped lifeless in the pans.

Of course there are all sorts of "personal" services that the electric current performs, like shaving a man and pummeling the fat off his wife, to say nothing of drilling a hole in his tooth when he goes to the dentist.

And at least one Latin-American is known to have grown wealthy, according to the survey, by electrically de-whiskering middle-aged duennas with social leanings.

NYSTROM P. T. A. PLANS YEAR'S ACTIVITIES

A number of visitors were present at the meeting of the Nystrom Parent-Teacher association Thursday afternoon when plans were made for the coming year. Mrs. C. R. Blake, president of the council, made several suggestions as to how the work could be carried out. The meetings will be held on the first Thursday of each month at 2 o'clock after this.

Lunatic In Mosque Brings Hot Battle

BOMBAY, August 18.—Serious disturbances broke out between Shiah and Sunni Moslems here recently because of what would generally be considered a trivial incident—the entry of a lunatic into a mosque. A number of the Shiahs severely beat the lunatic, who was supposed to be a Sani, for what they termed his sacrilegious behavior, and then threw him out into the street. The badly bruised man was found by a policeman and taken to a hospital.

Sunni gathered, on hearing of the attack, and began attacking the Shiahs, particularly a class of the Shiahs known as Bohars (money-lenders). The Sunnis beat the Shiahs with sticks, stones, knives and soda-water bottles. Disorders spread, and it was finally necessary to call out a large body of police to quell the disturbances. The uproar took place in Mutton street, which was the center of frequent clashes some years ago when the celebration of Muharram (the Moslem New Year) was the signal for annual disorders.

Bourbon Relics To Go Under Hammer

VENICE, Aug. 19.—Many precious historical relics of the House of Bourbon will go under the hammer in the salons of the Excelsior hotel, Lido, on August 25, when the effects of the picturesque Don Carlos the pretender are sold. Many of the articles will be personal souvenirs of the pretender to the throne of Spain, whose romantic career threatened to collapse the present King Alfonso the thirteenth.

This establishment during the years past has received many compliments for the care and the thorough manner in which every detail is carried out. Those who know will bear that out.

Withdrawal Of Uncle Sam From Merchant Marine Seen

BY JOHN T. LAMBERT

(By Universal Service)

RAPID CITY, S. D., August 19.

Despite the handsome profits claimed to have been made by the Leviathan and other giant liners of the American merchant marine, President Coolidge today is determined to get the government out of the shipping business as soon as possible.

He is anxious to sell or lease all the liners and merchant ships owned by Uncle Sam provided satisfactory guarantees can be obtained. The promises he will insist upon are:

1. That the ships will be retained in their present trade routes.

2. That they will always sail under the American flag in order that they can be commanded by the government in event of war.

President Coolidge disputes the claim of the shipping board that handsome profits have been garnered for the national treasury by the United States liners the past year. He asserts that not a ship operated by the government is out of the red ink, if the capital investments are considered.

The president holds that the United States put \$3,500,000,000 into the merchant marine and has lost more than \$3,000,000,000 of it. He, therefore, is unwilling to embark upon any new ship building program, although the need of construction new great liners to replace the present mistresses of the sea when they become obsolete has been called to his attention.

President Coolidge and the shipping board seem to be in agreement upon only one point. He consents to their demand that the government shall establish lines wherever private lines have been

"LAST OUTLAW" NEW THRILLER AT CALIFORNIA

Adherents of Western drama have a treat in store for them should they visit the California theatre today.

Gary Cooper's latest Paramount vehicle, "The Last Outlaw," heads the varied program. Director Arthur Rossen has created a worthy successor to "Arizona Bound" in his picture. And the same trio which had so much to do with the success of the earlier picture—Cooper, Betty Jewel and Flash, the Wonder Horse—once more appear together. In addition, Jack Lunden, a handsome youngster who is soon slated for stardom, enacts a featured role.

Just to list a few of the thrills in "The Last Outlaw" take a look at these:

Cooper and Flash leap from a moving cattle train in order to rescue Miss Jewel from a runaway horse. Gary's initial job as sheriff in a bandit-ridden town is to capture the killer of the man who preceded him in office. Gary discovers that he is Betty's brother, Jack Lunden. On the way back with Lunden, his prisoner, get shot. Betty informs Gary in no uncertain terms that she hates him.

The ranchers steal their own cattle from the rustlers and a terrific battle occurs, when the cows between both parties, continually stampeding in all directions. It is in this sequence that Gary once more rescues Miss Jewel, this time from the path of a maddened animal.

And—this doesn't even start telling what happens. Thrill piles upon thrill. There's fast riding galore and you'll have a grand time. Cooper proves himself an actor of merit while Lunden shapes up as true star material. J. Walter Ruben is credited with the adaptation. Billy Butts, Herbert Prior and Jim Corey head the supporting cast.

Other features on the same program include "The Non-Stop Bride," an Imperial comedy; and "Ko-Ko Gets Excited"; International News, and Larry Canelo at the organ.

HARD RIDING WESTERN NOW AT RICHMOND

Hard riding and swift action mark Tom Mix' latest, "The Canyon of Light," which had its first showing at the Richmond theater yesterday. For breath taking suspense, nerve tingling excitement and hair raising escapes, it is doubtful if even Tom has surpassed what he does in this gripping drama of the frontier. Not only are there some real shock producers in the mountainous country, where many of the sequences are taken, but battle scenes in France, where Tom plays the part of a dispatch rider, are also full of action and suspense. Dorothy Ewan plays the role of the sweet heroine with Tom, while William Walling, Ralph Sipperly, Carl Miller, Camilla Geraghty and Barry Norton are seen in roles of importance. Don't miss this one if you want to enjoy some real thrills.

Other film features on the same program include "Smith's Baby," a roaring comedy, and "Hitting the Trail," a screen novelty.

Dredgers On The Inner Harbor To Martinez

The hydraulic dredger San Pedro and a clam shell dredger will be moved here from Richmond Inner harbor within a few days to start reclamation of 131 acres of tule land on the Martinez waterfront, E. J. Clawitter, an official of the San Francisco Bridge company, which holds contract for the work, announced.

The company is to reclaim fifty acres of municipally owned property, 78 acres owned by the McNear interests and six acres owned by the California Transportation company. The city's work is being done under a \$75,000 bond issue.

The municipal bonds were delivered yesterday to a San Francisco banking institution. The clam shell dredger will be utilized in throwing dikes about the property and the hydraulic dredger will be employed in pumping in the fill.

Old Pottery To Be Torn Down

Work on the wrecking of the old pottery plant at Sixteenth street and Barrett avenue will start within a few days. The owners have agreed to tear down the structure, according to Fire Chief W. P. Cooper, who has branded the structure a fire hazard.

The wood frame buildings were occupied by the Pacific Sanitary Manufacturing company prior to its merger with the Standard Sanitary Manufacturing company. The main building was occupied by various industrial companies before it was taken over by the Pacific Sanitary company.

You are looking at history

The hawker of yesterday who cried his wares in the public places is now but vaguely remembered—swallowed up in yesterday's seven thousand years.

Today the news of goods for sale becomes an indelible record of human achievement.

You may take, for instance, the history of transportation in America and read that extraordinary tale of progress in an unbroken series of advertisements in the files of newspapers—advertisements that inform us of each progressive step from the sailings of sloops out of Boston for Philadelphia in the days of Franklin, to the flight of the Air Mail from Mitchel Field to San Francisco in our own day.

You may read the startling story of the revolution in household economy and the emancipation of the American wife and home-builder in the advertisements of the last twenty-five years.

But in today's papers you find an even more amazing record—the advertisements of radio outfits, automobile equipment, electrical appliances, foodstuffs, clothing, medicines—things which have raised our civilization to a plane higher than the world has ever known. Do you quite realize that in these advertisements you are examining a contemporary contribution to the recorded history of civilization?

NATIONALISTS RETREAT FROM NORTH ADVANCE

BY KARL H. VON WIEGAND
(By Universal Service)

SHANGHAI, August 19. — The Nationalist retreat before the forces of the north threatens to develop into a rout. More than 100,000 Chinese are retreating from the region of the Yangtze in the direction of Shanghai. More than 15,000 of them passed Shanghai today.

Many of the fleeing thousands are civilian refugees from Nanking who are hurrying to safety with all their movable possessions.

Many officers of the nationalist armies have changed into civilian clothing. Wireless dispatches from Nanking state that soldiers have looted the general army headquarters.

Madame Chiang Kai-shek No. 2 sailed this afternoon for San Francisco on the Dollar line steamer President Jackson. It was announced she was sailing alone and she was apparently unaccompanied. It is said she will visit California and other states and then go to New York, where she will remain for some time.

Madame is reputed to be wealthy in her own right and is reported to have a half million dollars' worth of securities with her. From circles close to her husband, the former generalissimo, comes a story that Chiang Kai-shek will soon leave for Germany accompanied by three of the leading nationalists. He sent two nationalist officers to Germany some weeks ago.

The British cruiser Hawkins is rushing to Nanking with 150 marines. Gen. Smalley Butler is hurrying to Shanghai from Tientsin.

Realtors Favor Greater Movie Season Here

Richmond, California, August 18, 1927.
Mr. Dan W. Reardon, Manager, West Coast Theaters, Inc., Richmond, California:

The Contra Costa Board of Realtors wish to congratulate you and the West Coast Theaters, Inc., upon the opening of the Greater Movie Season, over its entire circuit on August 19. We understand that your organization is to present a particularly ambitious array of pictures during this period. In the last thirty years the moving picture business has risen from an obscure enterprise to a vital institution in the life of the world, and we feel certain your program for the Greater Movie Season will have the effect of placing the business upon a still higher plane.

Erwin Plane Takes Dive In Ocean, Dole Flyers Lost

(Continued From Page 1)

and navigator, the tension became severe as countless thousands awaited the word which last night seemed to indicate that at least three of the missing airbirds had been found and safely brought ashore.

700 MILES FROM S. F.
The Dallas Spirit in which Erwin and his companion were flying, was thought to be about 700 miles out from San Francisco when the SOS reported the plane in a tail spin.

RECOVERED FROM FIRST
The first SOS told of a tail spin and feelings were relieved when the further message was received: "But we came out of it okay."

Then closely following came another message, according to the naval communications service here, which said, "We are in another tail spin. It is not known whether the radio went suddenly out of commission or whether the plane dropped into the sea."

DESTROYERS AID
The nearest steamship was thought to be the Frank Drum, bound from Cavite to Honolulu. Her position was reported about 500 miles west of San Francisco. The nearest destroyer was approximately 250 miles from the Dallas Spirit. They were rushing full speed to the last position given by Erwin.

PRIZES PRESENTED

HONOLULU, T. H., Aug. 19.—While the giant Fokker monoplane in which Lieut. Lester Maitland and Lieut. Albert Hegenberger completed the first successful flight from Oakland to Hawaii was warming up today at Wheeler field for a nine hour flight in search of the two missing Dole flight planes, Art Goebel and Lieut. W. A. Davis, winners of the race, received from James D. Dole, sponsor of the race a check for \$25,000. At the same time Martin Jensen who finished second was awarded his second prize of \$10,000.

The ceremony of awarding the prizes was a simple one. On the veranda of the Royal Hawaiian hotel, facing the famous beach of Waikiki, Dole spoke briefly, congratulating the winners, and expressing the hope that the race would be a step in the development of aviation.

The governor's aid hung beautiful leis about the necks of the victors, emblematic of their success.

PLANE TO CRUISE ISLES
The Fokker monoplane was expected to hop off for a long flight around the Hawaiian group in an effort to pick up some trace of the missing Golden Eagle and Miss Doran. It was being fueled with nine hours gasoline.

NO WORD FROM SHIPS
Meanwhile no word had come from any source or trace of the missing planes.

Rumors are constantly arising from many sources, raising hopes temporarily which are shattered on further investigation.

RUMORS FLY
Many objects seen at sea start these reports. Due to the fact that many of the fishing sampans are painted light blue with red trim, similar to the colors of the Miss Doran plane, these are often confused for the missing airship.

RAKER OPTIMISTIC

haggard from loss of sleep and worry refuses to give up hope. At a late hour today there was still no sign to indicate whether the missing planes were still aloft or had gone down leaving their five occupants to the mercy of the seas in their rubber boats.

Schools Teach Safety Rules To Youth

(By Universal Service)

LOS ANGELES, August 18.—To safety instruction in the public schools is attributed a decrease of twenty per cent in child fatalities in automobile accidents in Los Angeles county.

Twenty-three children ranging from five to fifteen years in age were killed by automobiles during the first six months of 1927, as compared with twenty-nine fatalities during the corresponding period in 1926. This decrease was registered despite the fact that automobiles in use increased eleven per cent and the school population increased many thousands.

Decrease in the children's death rate is rendered more remarkable in light of the fact that automobile fatalities for persons of all ages increased seven per cent in the periods under comparison, from 248 to 266.

Child safety education in Los Angeles is under scrutiny by the large cities of the country generally, this region having the largest number of automobiles per capita in the world, the traffic safety problem therefore being regarded as most acute.

TRY AND FIND THEM

SAN FRANCISCO, August 19.—If you find a couple of Texas girls, Anna and Rose, who left a trail fifteen years old, you can probably get a cut out of an estate of \$10,000.

The money was left by the girls' father, E. W. Oberfell, telegraph operator, who died at Lakeport, California, July 10.

If the girls are not found within one year, the money goes to daughters of the second wife.

Slagel Divorce Charges Booze And Cruelty

MARTINEZ, August 19.—Charges that her husband, Carl Slagel, Standard Oil company employee at Richmond, has beaten and cursed her and drinks intoxicants to excess, are made by Mrs. Barbara Slagel in suit for divorce she filed here today. Mrs. Slagel asks custody of two children and an award of \$75 monthly for support. They married in 1919.

The suit was filed through Attorney Will Roberson.

MILDREDDORAN FORSAW FATE

(By Universal Service)

FLINT, Mich., Aug. 19.—Mildred Doran knew she was taking her life in her hands when she set out to fly across the Pacific, her friends here revealed today.

"I have worked hard and I believe that if I succeed in being the first woman to cross the Pacific that I will never have to worry again," she said before she left. "If I die on the trip I am just all worry. It is a gamble and I am willing to take my chance."

Advertisements

Are Our Promises

People sometimes have an inclination to pass over advertising matter with the slightest statement, "Oh that's only an ad." They fail to realize the amount of information these advertisements give to make life easier and more worth the living for them.

There are several kinds of advertisements that the J. C. Penney Company try never to publish. False statements are seldom permitted in any newspaper, but we consider it just as wrong to write misleading copy. We do not promise that our cosmetics will work miracles with your complexion, and when you read our printed promise that a fabric will wash, you may be sure that behind it stands the honor of a great Company.

We like to feel that our advertisements deserve consideration from a news standpoint too. We strive to tell you something about the modern style trends, the opportunities to save money for the family budget, and new uses for old products.

First of all, our Advertising aims to be truthful, but we try to be newsworthy as well.

LANE HEADS BATTING IN S. O. LEAGUE

Team and individual averages for the 1927 season of the Standard Oil league were released yesterday by George Shaw, official scorekeeper. While the Barrel House won the championship, the Refinery headed the list in team batting and fielding with the Mechanics second in fielding and the Barrel House second in batting.

Bill Lane, former Seattle co-leader, really heads the list in batting with 44 times up and a percent of .455, although Steengraffe, once up and getting one hit rates 1,000 and Rooney four times up getting two hits pulled down 500. Huzefka and Hansen follow closely behind at the top of the list of heavy hitters.

The following are the individual averages with times at bat, batting and fielding averages:

FAST FIGHTING ON GOOD CARD AT EL CERRITO

Pete Meyer of San Francisco and Gene Cline of Fresno fought an eight-round draw in the main event last night on Harry Starr's card at the El Cerrito Athletic Club.

It was fast fighting throughout the eight rounds, both sockers putting up a good scrap. Cline who has a record of over four hundred battles without being knocked, kept his record unsullied, but Pete did manage to knock him to the floor in the seventh round.

The six-round semi-windup ended in a draw for Tim Vahey of San Francisco and Boston Wildcat O'Brien. Good boxing from start to finish.

Cliff Hottenger, of El Cerrito, stopped Mel Shaver, of New York, by a knockout in the third round of their scheduled six. The odds were on Cliff, who has never lost a battle and he went true to type.

The crowd was not in favor of Young Farrell, of San Francisco, getting the decision over Mickey Brown, of Richmond, and they booed the umpire for giving it to him. Everyone felt that Mickey was entitled to a draw.

Johnny Hanlon of San Francisco got a decision over Tiger Kid Carter of Los Angeles, in the four-round opening event.

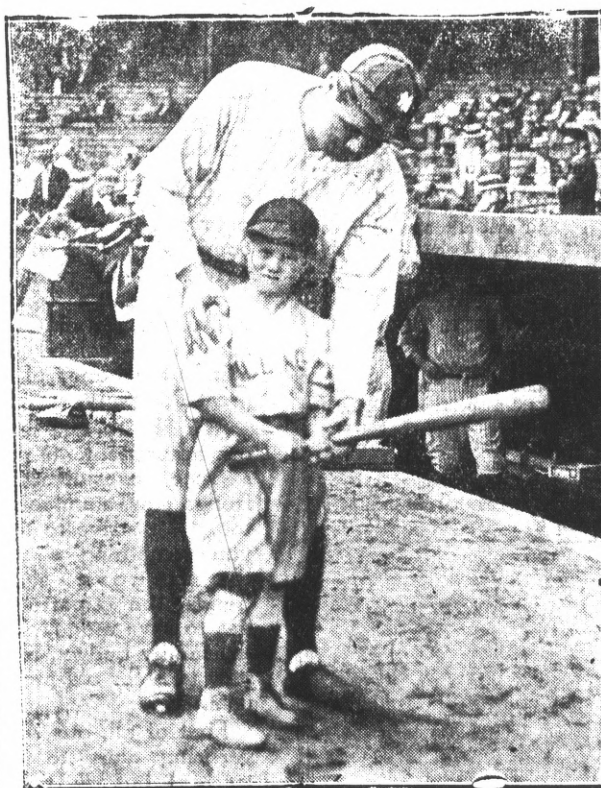

The El Cerrito cards continue to draw the large crowds showing that the fans are well satisfied with the selections and fights staged there.

PETE REILLY IS SUSPENDED

NEW YORK, Aug. 19.—The boxing commission slapped an indefinite suspension on Pete Reilly and his whole stable of boxers, including Jack Delaney, today, when the dapper Irish manager of the former light heavyweight champion failed to appear before the board as ordered.

According to Big Chief Farley, head of the tribe, Reilly was summoned to appear in person at the wigwam today to show cause why Delaney could not box Jack Sharkey or some other good opponent at the Coney Island stadium as he promised he would.

Ed Sullivan's SPORT WHIRL

HORNBY, THE MECHANIC; FRISCH, THE SHOWMAN

Richard Plescia, 481 Parsaic Ave., Lodi, N. J., has taken the shortest route to an argument.

He writes in to ask who is the better fielder, Frankie Frisch or Rogers Hornsby.

If that isn't the best way to start a baseball free-for-all, I don't know what is.

I believe that baseball men will agree on Hornsby, if the query is considered purely on mechanical merits. Hornsby has no equal when it comes to making double plays, and baseball men like to have a bird at second who can choke off two in one.

Andy High, the midget, who played with Brooklyn a few seasons ago, told me that he considered Hornsby the better fielder. "He plays deeper than Frisch," explained Andy, "and his cruising radius is greater than that of Frisch. Hornsby cuts off ground ball that Frisch can't reach because Hornsby plays deeper and has more time to make a play." John McGraw rates Hornsby better than Frisch.

Statistics prove that Hornsby and Travis Jackson lead both leagues in double killings.

Frisch is stronger than Hornsby up in the air. They never hit a fly ball that Frisch couldn't grab, but Hornsby is relatively weak overhead.

I have here answered Mr. Plescia, considering only the cold science of second-basing.

However, from the viewpoint of the fan, I think Frisch would get the nomination. He has color and Hornsby lacks it. Frisch, diving for a Texas leaguer that is about to flop in right center, gives me more of a kick than Hornsby's unemotional excellence demonstrated on a turf-biting grounder.

Hornsby is the better fielder, but Frisch is the greater showman and showmanship is what the fans pay their \$1.65 for at the gate.

Phil Jones' Sannies will play the Concord team of the three C league tomorrow at Concord. Batteries for the game will be Roberts, Kamb and Moss.

Now that the manager had returned to Richmond, the team is expected to snap into it and resume their former brand of playing, which they somehow forgot last Sunday in playing the Kuhnhardt Candies.

Thorough piano courses, including explanation of essential chords, cadences, and modulations. Special attention to phrasing, interpretation, and style. Studio reopens August 1 at 533 8th street. Telephone 1441-J. 7-9 1 mo.

slightest comfort. All the physicians whom she consulted expressed the opinion that she had no more than ten days to live. She truly seemed to be at the point of death when she took her first package of the Fong Wan Herbs. It was cooked for her at home, and that night she had the first rest after many weeks of terrible suffering. After four weeks of the Fong Wan Herb Treatment, she was able to return to her home in Stockton. From that city she has sent the following testimonial to the Fong Wan Herb Co.:
OWES HER LIFE TO FONG WAN HERBS
Stockton, Cal., March 21, 1927.
To the Fong Wan Herb Co.:
I have been a sufferer with valvular trouble of the heart for some time. I became so ill that my doctors, who were many, gave me but a week or ten days to live.
I decided to try the Fong Wan Herb Co. and to the amazement of all who attended me, I was able to walk into their office after taking the Herbs one week. I have now taken them four weeks and I not only have a good heart, but have also been helped in other ailments.
I cannot speak too highly of the Fong Wan Herbs, as I owe my life to them. I am very grateful to Fong Wan for their kindness.

VANZETTI AND SACCO DOOMED, APPEAL FAILS

BOSTON, Aug. 19.—Sacco and Vanzetti are back in the death house tonight, with their execution set for shortly after midnight next Tuesday morning.

They were taken from their regular prison cells today after they had lost their "last ditch" legal battle in the courts.

The full bench of the State Supreme Court today turned down all moves made by their attorneys to save their lives.

They have only one slim chance now of delaying execution and that is in the Federal courts. As soon as the State Supreme Court handed down its decision today a move was made toward the United States Supreme Court for a writ of certiorari asking for a stay of the death sentence and a review by the highest federal tribunal.

Sacco and Vanzetti who had built their hopes on this last chance became sullen and surly when informed that it had failed. Vanzetti became a man and shouted:

"Muster a million men at once."

He has appeared insane on previous occasions and has been locked in a padded cell for thirty six hours at a time.

Celestine Madeiros, who was reprieved a week ago with Sacco and Vanzetti, was also returned to the death house today and will be executed with the other two early next week.

Madeiros is charged with killing a bank cashier but he has confessed to a part in the South Braintree murders for which Sacco and Vanzetti were convicted and so has been saved from time to time so that his testimony would be available if their case was taken back into the courts.

MRS. THOMAS POWERS AT REDMEN CONCLAVE

Mrs. Thomas P. Powers of 643 Fifth street, official delegate to the Redmen convention in Stockton, returned home yesterday afternoon. She returned to Stockton last night for the remaining program of the convocation which extends over this week.

Bergen To Attend Kiwanis Meeting

Ralph Bergen, of the Certain-teed Products company, left for Santa Barbara yesterday to attend the Kiwanis District Trustees conference. He will return to Richmond Sunday.

Tujunga-Hanes Canyon Water company improving pumping system and installing new equipment.

At Opposite Poles Of Interest

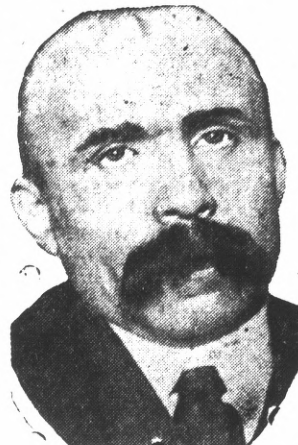

All three of the persons portrayed here face death. Miss Doran, the only woman flyer in the Dole race, lost on the Pacific wastes, and Sacco and Vanzetti, whose last effort to avoid execution next week was taken yesterday in an appeal to the U. S. supreme court.

To Sacco and Vanzetti it is probably of relatively little moment what the decision may be. They have lived with death for seven years, and have been the instrument of nationwide deaths through bomb outrages to arouse only indignation, not pity, for themselves.

Miss Doran is young—the great adventure of life is but opening for her.

And while attorneys for the doomed men muster their final arguments, and can legal phrases, another battle is going on to save a girl. A different kind of battle. The naval and aeronautical resources of a nation are combing the ocean to help her escape death—if she still be alive. Two battles; to save living dead men, and a missing girl.

Excavation Huge At Approaches To Big Span

While the erection of the main cantilever spans of the Carquinez bridge was an outstanding engineering feat, the building of the south approach to this crossing by the California highway commission was no less spectacular, says this month's issue of California Highways, commission bulletin.

Excavation of 207,000 cubic yards was necessary in building the 1.8 miles. The largest cut was made 500 feet long, and 105 feet deep, with a yardage of 83,000.

Under the requirements of the contract, dirt was spread in one-foot layers and then rolled to allow immediate use without disastrous settlement or sliding.

president of the general aid. Mayor Mattie Chandler spoke to the gathering on the bond issue, and urged that everyone turn out to vote August 23. The members favored the mayor's remarks.

Club Mendelssohn put on the program, which consisted of the following: Vocal numbers by Mrs. James Stuart, accompanied by Miss Bernice Mills, and recitations by Mrs. Virginia Bryant. The daughters of the club members then gave the rest of the program: Vocal numbers by Emily Caffee, accompanied by Miss Emma Meyer, one of the club's scholarship winners, and several piano selections by Barbara Lee Guanzir.

Roses and dahlias were used by the decoration committee to decorate the rooms, which were conceded by members to be beautifully arranged. Mrs. Hutt Prown was the chairman of the committee in charge. The refreshments were served by the chairman of the five circles.

Scout Honored By Troup 5

Troop 5, Boy Scouts of America, adjourned to the Marathon candy store last night after the meeting for a celebration in honor of First Class Scout Clyde Barhard, who reached his ranking only after three months in the troop. Clyde spent two and one-half years in a cub class conducted by Scoutmaster Julius Geritz.

Edward McCreagh and Ivan Uter were admitted into the troop last night. The boys were in complete uniform, the troop being rated as one hundred per cent in uniforms and efficiency, according to Scoutmaster Julius Geritz.

The following boys passed tests last night: Ira Cole, second class test, compass and scout's pace; Irwin Ridley, second class test, compass; Arthur Pimm, second class test, one month's service; Raymond Carr, second class test for scout's pace; Arthur Pimm, second class test, scout's pace and tracking, and Thomas Ryan, reported his 14-mile hike and passed the test.

Next Friday the boys will take tests in fire building, cooking, first aid and signaling. Troop 5 will meet at Boy Scout hall this afternoon at 2:30 o'clock to have its picture taken with the other troops for the Lion's International magazine.

Rotary Urged To Give Support For Bonds

Urging the members of the Richmond Rotary club to do their part in carrying the bond election next Tuesday, Major Tilden, president of the state board of harbor commissioners and speaker of the Richmond's location and natural resources.

As head of the port of San Francisco, he declared, that he is interested not only in that city but in Richmond and other Eastbay harbors.

"Every great commercial city is made great by its waterways, and with nature giving Richmond such a head start, your city should not hesitate to go forward and do its part in making San Francisco bay the greatest shipping and industrial empire of the world," said Major Tilden, president of the state board.

Edward Bull, chairman of the harbor bond committee, presided as chairman of the day. City Attorney Thomas M. Carlson made an impassioned appeal for the support of the bonds, and he paid a high tribute to Major Tilden. Mayor Mattie Chandler and Fred W. Parr made short addresses. Mrs. Chandler thanked the Rotarians for their work in behalf of the bonds.

to express it. Why should I take issue with them? Besides, I knew Sharkey would eat it up.

Others declared the workouts had proved Dempsey's speed was gone they overlooked the fact that he was boxing on a 4 inch felt pad, and none of them happened to notice that he was wearing heavy shoes. I figured the transition to a fast ring and light shoes on the night of the fight would make Jack feel like a race horse, and it did.

I knew Sharkey was gulping down every rap he read. Why should I have gone out of my way to expound my theories? Few of the boys insisted, we were holding secret workouts, especially during the last few days. The only workouts we were holding were around a card table, but I knew that the secret workouts helped to make Sharkey over-confident.

Employ Anchors At Carquinez For Buffers

CROCKETT, August 19.—As a part of the protective buffer system being put around the central pier of the Carquinez bridge to prevent it being rammed by passing ships in fog or mist, anchors are being dropped to hold the four vessels, as protectors, in place. Probably the largest anchor ever dropped in the Carquinez Straits was sent to the bottom yesterday as a part of this protective system. The large weights are classed as eight ton but the heaviest one out-weighed the others by a half ton, according to George Calder, managing director of the American Toll Bridge company. This is the tenth anchor to be dropped into place.

MENTZERS ON TRIP

Mr. and Mrs. C. E. Mentzer, accompanied by Miss Dorothy Strom and Miss Beam, left yesterday morning for Donner Lake for the week-end.

RAY: GRANDMA WINS SVELTE ANKLE CONTEST

(By Universal Service)

STONINGTON, Me., August 18.—Although she was competing against the pick of the belles summering in the Penobscot bay region of Maine, Mrs. Harry Wood, of New York, a woman of nearly sixty, and eight times a grandmother, walked off with the prize for the prettiest pair of ankles in the summer colonies in that district.

Summer girls and native young women who pride themselves on possessing alluring ankles were out in force from Stonington, Oceansville, Castine, and from as far east as Ellsworth and Bar Harbor. But all were forced to bow before the exquisite ankles of Mrs. Wood.
